

CIVIL ENGINEERING TECHNOLOGIST (FULL TIME, PERMANENT)

Vancouver, BC

Website: waterstreeteng.com

Apply by email to: inquiries@waterstreeteng.com

ABOUT THE OPPORTUNITY

Water Street Engineering Ltd. is looking for an experienced full-time Civil Engineering Technologist to join our Vancouver office, located in Gastown. In this position, you will have the opportunity to work as part of a team of engineers and technologists on projects for a range of public and private sector clients. This is a great opportunity for a motivated, energetic individual who wants to challenge their abilities in a dynamic work environment and who is looking for the opportunity to grow within a local employee-owned company.

ABOUT US

Water Street Engineering Ltd. is an employee-owned engineering consultancy specializing in water infrastructure planning and design. Our mission is to create cost-effective, fit-for-purpose and on-time solutions to water engineering challenges, and contribute to the success and goals of our clients.

YOUR ROLE

You will carry out drafting, design, and construction management on water infrastructure planning and design projects. Water Street's typical projects include water booster pump stations, sewage lift stations, watermain replacement, water control valve stations, stormwater conveyance, mine water management, and stream restoration. Typical duties for this role include:

- Preparing engineering drawings using Autodesk software (e.g., AutoCAD, Civil 3D, Revit).
- Completing on-site construction reviews and contract administration.
- Calculating material quantities, preparing cost estimates, and providing technical assistance to design teams.
- Preparing presentation graphics and report figures.
- Coordinating drawing packages with other engineers and project managers.
- Working collaboratively with engineers and technologists on multi-disciplinary teams.

You will have significant opportunities for career growth as part of our growing team.

REQUIREMENTS

- Diploma in Civil Engineering Technology
- 2-10 years relevant experience in a civil consulting environment including drawing preparation and construction management experience
- Proficiency using Civil3D for design and drawing production. Experience with Revit desirable.
- Familiarity with Master Municipal Construction Documents, MMCD-certified Contract Administrator desirable.
- Valid Driver's License

- Ability to work in a fast-paced, collaborative, team environment
- Excellent verbal and written communication skills
- Fluent in English and eligible to work in Canada

WHAT WE OFFER

Water Street Engineering is a rapidly growing company. We offer:

- A great work environment and a strong company culture based on innovation and collaboration
- Competitive compensation and performance-based bonus structure
- Health Spending Account benefit for all full-time permanent employees
- Ongoing funded professional development and on-the-job training and development
- Extensive opportunities for growth, advancement and career development

HOW TO APPLY

To apply, send your resume and cover letter to inquiries@waterstreeteng.com
